**Supporting Indiana
public schools in creating
and sustaining an equitable
learning environment for
every student.**

Project Services

- **Assistive Technology Lending Library:** Equipment, software, videos, and print materials available to public school staff for preview and evaluation purposes.
- **Professional Development & Technical Assistance:** In-person/online training and support on devices, strategies, tools, and materials. Consultations available for AAC, accessibility, AEM, AT, and UDL.
- **Universal Design for Learning Support:** Training and technical assistance available.
- **Fall Statewide Implementation Conference:** The best national and local presenters share what works with students. Typically in November.
- **Spring Statewide Tech Expo:** Assistive technology vendors and service providers available all day for demonstration and Q&A. Typically in April.
- **AEM Targeted Assistance:** Year-long, intensive support to bring districts into full compliance with the requirement to determine a process to provide Accessible Educational Materials to increase student achievement.
- **PATINS Blog:** Insights, ideas, and reflections on assistive technologies, universal design for learning and accessible educational materials. Read at: patinsproject.org/patins-blog
- **PATINS eNewsletter:** Monthly success stories, training dates, new lending library items, and other important information. Sign up: patinsproject.org/networking/enewsletter
- **PATINS TV:** Short video segments highlighting student solutions twice monthly, August to May.

Through PATINS, ICAM services are available at no cost to Indiana's PreK-12 public educators.

The ICAM works closely with the Indiana Educational Resource Center (IERC) to provide a full range of accessible formats of materials (NIMAS, braille, large print, ePubs, PDFs, audio and more).

ICAM Services

- **Provide** guidance on the use of accessible content in curriculum delivery and process material requests.
- **Maintain** a state-wide tracking system for accountability of local educational agencies.
- **Ensure** protection of the copyright process.

The Indiana Center for Accessible Materials (ICAM) is the Indiana repository that assists Indiana's local education agencies in meeting the NIMAS regulations of the 2004 IDEA reauthorization by securing accessible formats of textbooks and core curriculum materials in a timely manner for students with documented print disabilities.

Refurbished Technology

All technology is distributed at no cost to public Indiana schools through an online application request. For questions, please contact Director, Daniel McNulty.
